JASA KAMI

ATMA JAYA TEKNIK

1. Layanan Infrastruktur TI (The Backbone)

Audit & Desain Jaringan: Optimasi koneksi Wi-Fi dan LAN agar stabil di seluruh area kantor.

Manajemen Server & Cloud: Instalasi, konfigurasi, dan pemeliharaan server lokal maupun berbasis Cloud.

Hardware Lifecycle Management: Perawatan berkala perangkat keras (PC, Laptop, Printer) untuk memperpanjang usia pakai.

Monitoring Sistem 24/7: Pengawasan infrastruktur secara real-time untuk mencegah gangguan sebelum terjadi.

2. Layanan Sistem & Aplikasi (The Engine)

Custom Software Development: Pembuatan aplikasi internal (HRIS, Inventory, CRM) sesuai kebutuhan spesifik perusahaan.

Data Integration Service: Menghubungkan berbagai sistem yang berbeda agar data tersinkronisasi secara otomatis.

Application Maintenance: Pemeliharaan dan update rutin aplikasi agar tetap berjalan lancar dan bebas bug.

Database Management: Optimasi penyimpanan dan pengelolaan data perusahaan agar mudah diakses dan rapi.

JASA KAMI

ATMA JAYA TEKNIK

3. Layanan Keamanan Informasi (The Shield)

Cybersecurity Audit: Pemeriksaan celah keamanan pada sistem dan jaringan secara berkala.

Data Encryption: Penerapan enkripsi pada data sensitif perusahaan agar aman dari pencurian.

Automated Backup Solution: Sistem pencadangan data otomatis untuk menjamin keamanan data jika terjadi kerusakan perangkat.

Access Control Management: Pengaturan hak akses digital untuk mencegah akses tidak sah dari pihak luar maupun internal.

4. Layanan Technical Support (The Support)

IT Helpdesk 8/5 atau 24/7: Layanan pengaduan kendala IT melalui chat, telepon, atau email.

On-Site & Remote Troubleshooting: Perbaikan kendala teknis baik secara langsung di kantor maupun jarak jauh.

User Training: Pelatihan bagi karyawan agar mahir menggunakan perangkat dan sistem perusahaan. **SLA (Service Level Agreement):** Jaminan waktu respon cepat dalam hitungan menit untuk masalah mendesak.

JASA KAMI

ATMA JAYA TEKNIK

5. Layanan Inovasi & Transformasi Digital (The Future)

Business Process Automation: Mengubah proses manual yang lambat menjadi otomatis menggunakan teknologi.

Digital Roadmap Consulting: Konsultasi strategis untuk menentukan arah teknologi perusahaan di masa depan.

Modernisasi Sistem: Migrasi dari sistem lama (legacy) ke teknologi terbaru yang lebih efisien dan hemat biaya.

Implementasi Teknologi Baru: Adopsi teknologi seperti AI, IoT, atau analitik data untuk meningkatkan daya saing bisnis.
